About Me

I have experience as a full-stack developer to build scalable, performant and robust web applications utilizing **JavaScript/TypeScript, react, next.js, node.js, laravel** and **python**. My background also includes the development of secure **backends, restful apis and modern responsive ui's** that are clean and maintainable. In addition to my professional experience, i also started the **Ethio Coders Telegram community** (@Ethio_Coders_channel 🗉) to support nearly 5000+ developers through the exchange of coding information/knowledge and resources. Ultimately, my goal is to solve meaningful problems through the creation of reliable software, continue to grow and improve my technical abilities, and be able to help other developers grow their own abilities.

Professional Experience

01/2024 – 03/2024
Addis Ababa

SWENETIX TECH

Junior Full Stack Developer (Internship)

- Developed dynamic and responsive web applications during internship at SWENETIX TECH.
- Responsible for front-end and back-end development, creating user interfaces and writing back-end code using **TypeScript** and **PHP** programming languages.
- Developed and integrated **APIs**, handled data processing, and ensured effective communication between front-end and back-end systems.
- Collaborated with a group of developers on real-world applications and projects.
- Gained valuable experience in full-stack web development and improved programming skills through hands-on project work.
- Strengthened ability to develop complete web applications and work effectively in a team environment.

09/2024 – 01/2025
Addis Ababa

Qemer Software Technology PLC

Backend Developer

- Worked as a Backend Developer specializing in the **MERN** stack (MongoDB, Express.js, React, Node.js), building scalable RESTful APIs and handling server-side logic for dynamic, high-performance web applications.
- Designed and managed MongoDB databases, ensuring efficient data modeling, security, and optimization.
- Developed robust backend services using **Node.js** and **Express.js**, implemented authentication systems, and integrated third-party APIs.
- Collaborated closely with frontend developers using React to deliver seamless full-stack solutions with smooth client-server communication.
- Focused on debugging, performance tuning, and maintaining clean, maintainable code throughout the development lifecycle.
- Strengthened ability to develop end-to-end web applications, work effectively in teams, and deliver reliable, production-ready systems.

06/2025 – 11/2025
Addis Ababa

Gasha Digital Technologies

Full Stack Developer

- Built backend logic and designed database schemas using Next.js, Node.js, and Prisma ORM.
- Implemented secure user authentication and role-based access control for data protection.

- Developed REST API integrations and leveraged server-side rendering (SSR) for optimal performance.
- Improved application performance, maintainability, and scalability while following clean code principles.
- Managed version control with Git and collaborated in an agile development environment.

05/2024 – Present

Self-Employed

Full Stack Developer (Remote & Freelance / Private Clients)

- Develop and maintain full-stack web applications using technologies such as **Laravel, React, Node.js, and TypeScript**
- Design and implement **RESTful APIs** to enable seamless front-end and back-end communication
- Build custom web solutions for private clients based on specific business requirements
- Gather and translate client needs into scalable, efficient technical solutions
- Develop responsive, user-friendly interfaces using **React / Next.js**
- Implement secure back-end systems, including database design, authentication, and authorization
- Integrate third-party services such as payment gateways, notifications, and external APIs
- Collaborate with remote teams using tools like Git and project management platforms
- Optimize application performance and improve system reliability
- Troubleshoot, debug, and upgrade existing applications
- Deliver projects on time while maintaining clear and professional client communication
- Provide ongoing maintenance, updates, and technical support

Education

2023 – 2026
Addis Ababa

Bachelor of Science in Information Systems
Addis Ababa University

Skills

Frontend

JavaScript | TypeScript | React |
Next.js | HTML5 | CSS3 |
Tailwind

Cloud & DevOps

Docker | CI/CD | Git & GitHub

Backend

Python | FastAPI | Node.js |
Express | Prisma | RESTful &
GraphQL APIs | Supabase |
Firebase | Nest.js

Methodologies & Practices

Agile/Scrum | TDD | Scalable
Architecture | Clean &
maintainable code

Strengths

Problem-solving | Rapid
prototyping | Cross-functional
collaboration | User-focused
solutions | Continuous learning

Languages

Amharic
(native)

Afaan Oromo
(fluent)

English
(proficient)
